17 October 2017

To: Dr. John Pickering, President, The Polistes Foundation, aka DISCOVER LIFE

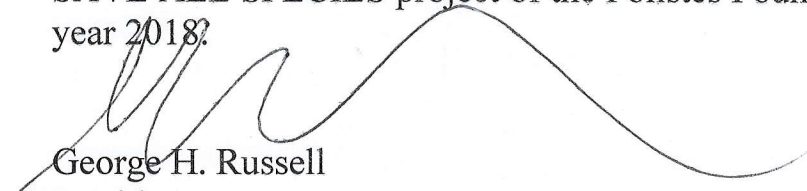

Subject: Pledge of the scientific use of the most ecologically diverse 3,000 acres in the State of Texas with 12 miles of the most valuable waterfront, aka riparian habitat.

Said 60 wildlife refuges and botanical preserves have been utilized by various universities, the U. S. Department of Agriculture, and other governmental and non-profit organizations for scientific research.

The Institute for Strategic Biospheric Research Institute Conference Center on the foundation's Rain Lily Sanctuary, with its 6 bedrooms, 6.5 baths and two kitchens is available at no charge to non-profits and government entities that are working to SAVE ALL SPECIES in our endangered biosphere.

The commercial value of the 12 miles of waterfront alone would be around \$80,000,000, so at 5% interest the value of the use of the botanical preserves and conference center would be around \$4,000,000 per year in "like kind" contributions.

The Ethician Foundation also pledges to work diligently to procure a minimum of \$10,000 and hopefully much more to help fund the work of the SAVE ALL SPECIES project of the Polistes Foundation during the calendar year 2018?

George H. Russell  
President
